NARRATIVE

On Saturday, June 11th, 2016, at approximately 2327 hours, I, Officer Joshua Fenton, of the New Mexico State Police Uniform Bureau, in uniform and in a marked unit, was on patrol on State Road 68 in the Town of Ohkay Owingeh, County of Rio Arriba, and State of New Mexico.

I was traveling southbound on SR 68, when New Mexico State Police Officer Jerry Santana pulled over a white KIA. The KIA was failing to maintain lanes and was riding the median line at times. Officer Santana was in fear of the vehicle causing an accident and hurting someone else. Officer Santana did not have a working Coban so he could not wait for another unit to come and witness the driving. He conducted a traffic stop and waited for me to arrive. I arrived on scene and noticed the KIA on the west shoulder of the road. The female driver was outside of the vehicle and in speaking with Officer Santana. I had the female driver walk back to my unit where I repositioned it. The female driver was identified as Juliana Garcia and the photograph on file matched the driver. Juliana had bloodshot watery eyes. I did not detect an odor of alcohol emitting from her breath but she was talking slowly and focused on what to say next. I asked her if she would perform Standard Field Sobriety Tests (SFST's); and she agreed to do so.

I began the battery of tests with the Horizontal Gaze Nystagmus (HGN) Standardized Field Sobriety Test. I instructed Juliana to stand with her feet together, hands straight down at her sides and not to move out of that position until told to do so. I instructed her to focus on a stimulus approximately twelve to fifteen inches from her face with the instruction of moving her eyes and not to move her head while she followed my finger. I asked her if she understood the instruction and asked her if she had any questions. She replied that she understood the instruction and she did not have any questions. Juliana appeared to understand my instruction and I began the test. I did not observe any resting Nystagmus in either of her eyes. Both pupils appeared to be normal. I did observe equal tracking in both eyes. I observed lack of smooth pursuit in both eyes. I observed distinct and sustained Nystagmus in both eyes at maximum deviation. I observed the onset of Nystagmus prior to forty-five degrees. Juliana did have to be told multiple times to focus on the stimulus.

I asked Juliana if she had any leg problems which would prevent her from performing the series of tests. She stated she had no problems. I instructed the Walk and Turn test. I advised Juliana to place her right foot in front of her left foot heel to toe, to place her hands at her sides and to stay in that position until told to move. I advised Juliana to walk 9 steps heel to toe on an imaginary center straight line as she counted out loud on each step. I instructed once she was on step 9 she had to take short choppy steps as she turned around to the direction she began walking on the imaginary strait line. I advised she had to again walk 9 steps heel to toe on the imaginary straight line as she counted out loud on each step. I asked her if she had any questions and if she understood the instructions. She stated she understood and she did not have any questions. Juliana began the test and took nine steps on beginning walk. She had her hands slightly raised from her sides. Juliana failed to maintain heel to toe every step and occasionally stepped off of the line. Juliana failed to turn around properly. After completing the return trip she turned around and conducted the beginning walk again then stopped.

I then began to instruct the One Leg Stand test. I advised Juliana to stand in the designated position with her hands at her sides and not to move until to do so. I advised she needed to choose the leg of her choice to stand on and to raise her other leg approximately 6 inches above the ground and to keep her raised foot parallel to the

ground. When she would do test she would have to have her toe pointed out and look at her raised foot as she counted out loud ?1 thousand 1,1 thousand 2, 1 thousand 3?, and so forth until I told her to stop. I asked her if she had any questions and if she understood the instructions. She stated she understood and she had questions about how to count. Juliana began the test and stood on her left foot. Juliana was unable to maintain her balance and placed her foot down on the ground multiple times when conducting the test.

I asked Juliana if she was able to count from 0-100 and she said she did. I asked Juliana to count backwards from the number 47 to the number 30. Juliana appeared to understand my instructions. I advised her to begin when she was ready. Juliana began counting from the number 47 and counted to 30 correctly. When Juliana got to 41, she had to stop and think about the next number to say.

I then began to instruct the Finger Dexterity Test. I advised Juliana to stand in the designated position with her hands at her sides and not to move until to do so. I advised Juliana she needed touch her thumb to every finger and count from "1, 2, 3, 4" for every finger she touched. Once she touched her last finger she must then go back in the opposite direction and count "4, 3, 2, 1" for every finger touched. Juliana must then repeat this process 3 times. Juliana appeared to understand my instruction. I advised Juliana to begin when she was ready. When Juliana began the test she did not count correctly.

I placed Juliana under arrest without incident for Driving While Under the Influence of an Intoxicating Liquor and or Drug. I handcuffed her behind her back and the handcuffs were double locked for her safety. I had Juliana stand in front of my unit and checked her mouth for any foreign objects, which I did not locate any. I read her the New Mexico Implied Consent Advisory and she agreed to submit to the chemical tests I placed Juliana in the rear right of my vehicle. New Mexico State Police Officer Jerry Santana stood by with Juliana's vehicle until Valley's Towing arrived. During an inventory of the vehicle, multiple folded up foil was found with white residue on it. None of the foil had enough residue to properly test.

Juliana was secured with a seatbelt during transport to the Espanola Hospital for a legal blood draw. Juliana was then transported to the Espanola State Police Office for completion of the booking. Juliana then was transported to the Rio Arriba Adult Detention Center without incident.

Juliana was charged with the crime of: Driving While Under the Influence of an Intoxicating Liquor and or Drug (1st Offense-impaired) and issued a citation for Cracked Window, No insurance, failing to maintain lane, No Registration, and failure to have license plate light. A copy of all arrest related paperwork was provided to Juliana.

Case status is closed.

NARRATIVE

On June 11, 2016, at approximately 11:27 PM, I, Officer Jerry Santana, of the New Mexico State Police, in full duty uniform, displaying my badge of office and in a fully marked New Mexico State Police unit was on mobile patrol on State Road 68 near the mile marker 6. I observed a white Hyundai four door car bearing a New Mexico temporary tag traveling south on SR 68. The vehicle was in the number two lane (being the fast lane of a two lane highway, number 1 being the slow lane or right lane) the vehicle was swerving within the lane. The vehicle was unable to maintain its lane and would travel from left to right crossing the solid yellow line to its left and travel back to the right crossing the dotted white line. The vehicle would travel so far left it would get in the median and actually touch the dirt. The vehicle almost struck another vehicle traveling the same direction which was in the number one lane.

My COBAN recorder was not working this day, and I had asked Espanola Dispatch for assistance from another State Police Unit with a working COBAN. I attempted to wait for the unit to arrive to catch the erratic driving, but I was concerned for the public's safety with the erratic driving. Based on my observations and the need to stop the action immediately, I initiated my emergency equipment and conducted a traffic stop on the vehicle.

I approached the vehicle and made contact with the female driver and advised her the reason for the stop. While talking with the female who was later identified as Ms. Juliana Garcia, I noticed her speech was very slow and slurred. Juliana's eyes were very glossy and watery. I asked Juliana to step out of her vehicle and speak with me. Juliana agreed to step out of the vehicle.

I waited for New Mexico State Police Officer J. Fenton to arrive on scene and advise him of what I observed. I advised Officer Fenton of the erratic driving and failure to maintain lanes. I also advised him of how Juliana's speech was and her behavior. I advised him I believed the female to be under the influence of narcotics. Using the Police Team Concept, Officer Fenton began his DWI investigation.

Officer Fenton subsequently arrested Juliana for DWI.

This concludes my involvement in this case; any new information will be added in the form of a supplemental report.

This case is closed.

SYNOPSIS This report documents my involvement in a harrassment case. Refer to narrative for details.								
NARRATIVE <p>On Saturday, June 11, 2016, at approximately 2030 hours, I, Officer James Tremann of the New Mexico State Police was in full uniform, clearly displaying my badge of office #438. I was patrolling in a fully marked New Mexico State Police patrol vehicle when I received information from Officer Shane Faulkner of the New Mexico Motor Transportation Department regarding a female who wanted to report her sister's ex-boyfriend was harrassing the family.</p> <p>I contacted the female via telephone at approximately 2100 hours. She was verbally identified as Amber Wise-Martinez ([REDACTED] 1982). Amber informed me her sister, verbally identified as Jessica Wise ([REDACTED] 1979) was being harrassed by her ex-boyfriend. Amber only knew this man by his first name, which she stated was Michael. Amber stated Michael had been driving past her sister's residence in his vehicle on multiple occassions.</p> <p>I informed Amber of her and Jessica's ability to file a civil restraining order against Michael come Monday. Amber stated she and Jessica would go to the courthouse and file a restraining order after Amber spoke with Jessica.</p> <p>This case is closed.</p>

<p>SYNOPSIS</p> <p>This report documents my involvement in a RV fire with no injuries. Refer to narrative for details.</p>						
<p>NARRATIVE</p> <p>On Saturday, June 11, 2016, at approximately 1937 hours, I, Officer James Tremann of the New Mexico State Police was on duty, in full uniform, clearly displaying my badge of office #438. I was patrolling in a fully marked New Mexico State Police patrol vehicle. I was advised by Dispatch to respond to an RV fire at 2 Las Resolana Circle in the village of Ensenada, county of Rio Arriba, state of New Mexico.</p> <p>I arrived on scene at approximately 2003 hours and observed firefighters from the Tierra Amarilla Fire Department extinguishing a fire on a white, 1984 LE19 RV bearing New Mexico registration 46975RVB. The RV was extremely burnt, with most of the vehicle being disintegrated or badly burned by the flames.</p> <p>I met with the reporting person, verbally identified as Gerard Gonzales ([REDACTED] 1957). Gerard informed me he had come to the area to camp and had left the RV in the area since last fall when he was hunting. Gerard stated he attempted to start the RV when he heard a crackling noise coming from the engine. Gerard stated soon after, the engine compartment began flaming and smoking. Gerard stated he attempted to pour water on the flames, but realized they were spreading too quickly to stop.</p> <p>Gerard provided me with the information for the owner of the RV, who was identified as Evangeline Peterson ([REDACTED] 1956). Gerard contacted Evangeline via telephone and got the insurance information for the vehicle. The RV was insured by Progressive Insurance (policy #76741983).</p> <p>No foul play or arson was suspected after my investigation. Fire officials and other officers at the scene believed the fire was started due to pack-rats chewing the insulation from the wiring in the engine compartment.</p> <p>This case is closed.</p>

NARRATIVE

On Saturday June 11, 2016 at approximately 2230 hours, I, Officer Jacob DeLeon of the New Mexico State Police uniformed bureau was clearly displaying my badge of office #380. I was patrolling in my New Mexico State police marked unit #656. Dispatched advised me, Officer Jerry Santana with the New Mexico State Police had conducted a traffic stop near mile post 9, in front of County Road 46. This occurred in Alcalde, County of Rio Arriba, State of New Mexico.

Upon my arrival, I met Officer Santana. Using the Police team concept, he advised me the driver was blocking off County Road 46 with his vehicle. Officer Santana conducted a traffic stop and the driver of the vehicle who was identified as Faustin Martinez. Officer Santana said Faustin had blood shot watery eyes and slurred speech. Officer Santana invited Faustin out of the vehicle and had Faustin stand outside of the vehicle. I took over the investigation.

I asked Faustin where he was going, and Faustin said he was going to a friend's house and did not know where Delancy Street was, so he parked in the middle of the road and was trying to google the address. Faustin had his children inside of the vehicle in the back and his cousin in the passenger side. His children were identified as Elijah Martinez DOB [REDACTED] 2009, and Faustin Martinez JR DOB [REDACTED] 2004. Faustin SR said he had a couple drinks and his last drink was around 2030 hours. Faustin said he drank blue Budweiser 12 oz. cans. Based on the information Faustin told me, and the odor of an alcoholic beverage which was now emitting from his face, I advised Faustin I was going to perform Standardized Field Sobriety Test. Faustin agreed.

I administered a series of field sobriety tests according to the 2013 NHTSA guidelines. Faustin was asked if the area he was about to conduct the Standardized Field Sobriety Test level, and Faustin agreed.

I began the Battery of tests with the Horizontal Gaze Nystagmus (HGN) Standardized Field Sobriety Test. I asked Faustin if he had any leg problems or any problems balancing himself or if he wore any glasses or contacts. He advised he had broken his back 25 years ago.

Faustin was told to stand with his feet together, hands at his sides and to place his feet together and not to move until told to do so until told to do otherwise and Faustin agreed. I had him focus on a stimulus approximately 12 to 15 inches from his face with instruction of moving his eyes and not to move his head. I instructed the Horizontal Gaze Nystagmus test on the Faustin. I advised Faustin to follow the tip of my index finger with his eyes only and not to move his head as he followed the tip of my finger. I asked him if he understood the instruction and if he had any questions. He stated he understood and he had no questions. Faustin appeared to understand my instruction. I began the test and conducted the Horizontal Gaze Nystagmus test on Faustin. I observed no resting nystagmus in either eye. Both pupils appeared normal. I observed equal tracking in both eyes. I observed Lack of smooth pursuit in both eyes. I observed distinct and sustained nystagmus in both eyes at maximum deviation. I observed onset of nystagmus prior to 45 degrees.

I instructed the Walk and Turn test. I advised Faustin to place his right foot in front of his left foot heel to toe, to place his hands at his sides and to stay in that position until told to move. Faustin raised his arms to maintain balance. Faustin stood with his left foot in front of her right foot two times. I advised him he needed to place his right foot in front of his left foot heel to toe. He would need to place his

hands at his sides and stand in the instructed position until instructed to move. Faustin stood in the instruction portion and lost his balance. I advised Faustin to walk 9 steps heel to toe on an imaginary center straight line as he counted out loud on each step. I instructed once he was on step 9 he had to take short choppy steps as he turned around to the direction he began walking on the imaginary strait line. I advised he had to again walk 9 steps heel to toe on the imaginary straight line as he counted out loud on each step. I asked him if he had any questions and if he understood the instructions. He stated he understood and he had no questions. He said he would do his best because of his back, and I told Faustin to conduct the test as best as he can and that I would take that into consideration. Faustin began the test and swayed as he walked and did not walk 9 steps completely and started over the test. Faustin was walking with his feet pigeon toed so he can maintain his balance. Once I noticed this I had told Faustin to stop the test and to do it again and to keep his feet pointed and straight and Faustin said "I'm trying it's my back that hurts." Faustin did not touch heel to toe on most of his steps and performed 10 steps forward and made choppy steps when he turned around and made another 10 steps.

I then began to instruct the One Leg Stand test. I advised Faustin to stand in the designated position with his hands at his sides and not to move until to do so. I asked Faustin if he had any leg problems. He stated he did not. I advised he needed to choose the leg of his choice to stand on and to raise his other leg approximately 6 inches above the ground and to keep his raised foot parallel to the ground. When he would do this he would have to have his toe pointed out and look at his raised foot as he counted out loud 1 thousand 1,1 thousand 2, 1 thousand 3, and so forth until I told him to stop. I asked him if he had any questions and if he understood the instructions. He stated he cannot balance on one foot and he also told me he understood and he had no questions. Faustin began the test and stood on his right foot. He swayed as he conducted the test and raised his arms for balance.

I placed Mr. Herrera under arrest without incident for Driving while under the influence. I handcuffed him behind his back and the handcuffs were double locked. I told him he needed to step in front of my unit. I read him the New Mexico Implied consent advisory and he did agree to the tests. I checked his mouth for any foreign objects and none was found. I began my twenty minute deprivation period at 2246 hours. Officer Jerry Santana of the New Mexico State Police stayed by with the vehicle for pickup by a family member of Faustin family. Jerica Martinez who was Faustin's niece obtained the vehicle and the children. Faustin was seated in the right rear seat of my unit and was seat belted. We arrived at the Presbyterian Hospital in Espanola for a legal blood draw. Faustin was cleared for jail and a blood draw kit was obtain and filed from the hospital. We then arrived to the Espanola State Police Office for the booking process. He was seated in the holding cell and secured to the D-ring.

Faustin was issued a citation for Driving While Intoxicated and Driving 6th Offense. He was also charged with two counts of Child endangerment for having his two children inside the vehicle. SKY was contacted in reference to an intake report being generated on 6/13/2016.

Faustin was transported to the Tierra Amarilla Detention Center. A copy of all arrest related paperwork was provided to Mr. Herrera.

NARRATIVE

On June 11, 2016, at approximately 10:24 PM, I, Officer Jerry Santana, of the New Mexico State Police, in full duty uniform, displaying my badge of office and in a fully marked New Mexico State Police unit was on mobile patrol on State Road 68 near the mile marker 9. I observed a gold Nissan four door car bearing NM MYF528 on the west side of SR 68 and on a county road facing south.

The Nissan was moving slowly along the dirt frontage road and was partially on the county road. I approached the Nissan and the vehicle began to drive slowly on the dirt frontage road. I conducted a traffic stop on the Nissan and made contact with the driver. Upon making contact with the male driver I could immediately smell a strong odor of alcohol emitting from the car. The driver's speech was slow and slurred, his eyes were blood shot and watery. The driver immediately opened his driver's side door and upon him opening the door, I immediately observed drug paraphernalia on his floor board. There was a bottom of a coke can cut out, which based on my training and experience is used for consuming narcotics. There were cut and hollowed out pens in the driver's side door, based on my training and experience these pens are used for the consumption of narcotics.

The driver exited his car under his own free will, and I confirmed the smell of alcohol emitting from his person. I asked the driver if he had been drinking, and the driver admitted to having a few beers earlier. He stated he was only on the side of the road because he was trying to find another party in the Velarde area. Using the Police Team Concept, I asked for New Mexico State Police Officer J. Deleon to assist with the DWI investigation. My police unit's COBAN recording system was not working and there were two small children located in the rear seat of the male's car. I was able to identify the male as Mr. Faustin Martinez.

Faustin's car had drug paraphernalia and prescription pills all within the car. Officer Deleon conducted his DWI investigation and placed Faustin under arrest for DWI. I proceeded to assist the children who were released to the safety of their aunt who was identified as Ms. Jerica Martinez. While filling out the vehicle towing authorization/inventory form for Faustin's vehicle, because it was being towed. I found more drug paraphernalia, and it was handed over to Officer Deleon.

This concludes my involvement in this case; any new information will be added in the form of a supplemental report.

This case is closed.

NARRATIVE

On June 11, 2016, I was on duty in a marked New Mexico State Police unit. I was wearing a State Police uniform with my badge of office clearly displayed. I was on patrol in the County of Rio Arriba, State of New Mexico.

At 1527, I was at the Espanola New Mexico State Police, in the County of Rio Arriba, in the State of the New Mexico when I was advised that Michelle Martinez was a victim of identity theft. Michelle Martinez is the reporting party and the following is her statement.

MICHELLE MARTINEZ'S STATEMENT: Michelle stated on June 9th, 2016 she was looking at her credit a noticed a bill of \$1,177.00 from a cable company called Oceanic Time Warner Cable that is located in Hawaii. Michelle stated this account was open sometime in September 2010. Michelle stated she called the cable company and tried to get information on this account. Michelle stated the cable company was not giving her any type of information. Michelle stated the cable company compared all the addresses that Michelle used to live to the address this account was open under and the cable company stated the address on their files did not match any of the addresses that Michelle lived at during that time. Michelle stated someone used her identity to open up this account. Michelle stated sometime in 2007 she lost her passport, and sometime in 2009 she had essential documents in her ex- husband's car which were stolen. Michelle stated she had copies of important documents that had her identity. Michelle also stated that OPM (Office Personnel Management) a Federal Government Human Resource was hacked multiple times. Michelle believes in one of these occasions someone might have got ahold of her identity. Michelle stated she wanted to make a report this in order to get her credit fixed. This concludes her statement.

Michelle did provide a document stating that there is a bill of \$1,177.00 and is in dispute between Michelle and the credit company.

This case is closed.

If any additional becomes available for this case, it will be added in a supplemental report.
